Appendix I.3(1)

Letter No. 11012/18/78-PR (Vol. III) dated the 3rd August, 1978 from Department of Social Welfare, Government of India, to Chief Secretaries of all States and copy endorsed to Ministry of Finance, Ministry of Home Affairs, Finance Commission, Planning Commission, Comptroller & Auditor General and Finance Secretaries of all States.

- - -

Sub:- Compensation to the States for loss of excise revenue resulting from the implementation of prohibition policy.

- - -

I am directed to refer to d.o. letter No. 11012/18/78-PR, dated 28th March, 1978 from Shri Saran Singh, Secretary, Department of Social Welfare addressed to the State Governments on the question of implementation of the prohibition policy.

2. I am directed to state that the Government of India have decided to compensate the States for the established loss of excise revenue resulting from the implementation of the above policy. The compensation will be limited to 50% of their established loss of excise revenue each year, commencing from 1978-79, treating the actual excise revenue of 1977-78 as the base. The States will have to devise ways and means of meeting the balance loss. In this context the State Governments may consider mopping up, through taxation as well as through voluntary savings, of a part of the income that would otherwise have been spent on liquor. The States would not be compensated for possible increases which may have occurred in excise revenue, cost of enforcement etc. The established loss of revenue will be computed on the basis of figures of State excise revenue as certified by the State's Accountant General.

3. The above scheme of assistance to the States, which will be in the form of grant, will be in operation till the end of financial year 1983-84.

4. The States would have projected their revenues to the Finance Commission on the basis of the national policy which envisages complete prohibition within a period of four years and it will be for the Commission to take a view on the question of devolution of funds with reference to the resources position disclosed in the forecasts and other relevant factors.

Appendix I.3(ii)

Letter No.P.11012/18/78-PR dated the 4th August, 1978
 from Department of Social Welfare, Govt. of India
 to Member Secretary, Finance Commission, New Delhi.

Sub: Compensation to the States for loss of excise revenue
 resulting from the implementation of prohibition policy.

....

I am directed to say that in pursuance of the Directive Principle of State Policy in the Constitution, the State Governments have been requested to implement the policy of prohibition in a phased manner over a period of four years. Guidelines on this subject have also been issued.

2. The Government of India have decided to compensate the States for the established loss of excise revenue resulting from the implementation of the above policy of prohibition. The compensation will be limited to 50% of the established loss of excise revenue each year, commencing from 1978-79 treating the actual excise revenue of 1977-78 as the base.
3. The States will have to devise ways and means of meeting the balance loss. The States would not be compensated for possible increases which may have occurred in excise revenue, cost of enforcement etc.
4. The above scheme of assistance to the States, which will be in the form of grant, will be in operation till the end of the financial year 1983-84.

5. In terms of the above decision, Gujarat and Tamil Nadu States which have implemented the policy of prohibition long ago and whose excise revenue in the base year 1977-78 is accordingly negligible will not get the grant-in-aid. These States would have projected their revenues to the Finance Commission on the basis of the continuance of their present policy of prohibition and it will be for the Commission to take a view on the question of devolution of funds to these States with reference to the resources position disclosed in their forecasts and other relevant factors.

6. A copy of the letter issued to the State Government is enclosed for the information of the Finance Commission.

Appendix I.3(iii)

D.O.No.PF/R-9(50)74-Vol.V dated the 16th September, 1978 from
 Shri G. Ramachandran, Finance Secretary, Ministry of Finance,
 New Delhi, to Shri V.B. Eswaran, Member Secretary, Finance Commission.

....

Subj: Compensation to the States for the loss of excise
revenue resulting from implementation of prohibition policy.

Please refer to letters No. T-11012/18/78-TR dated August 4, 1978 and No. 11012/18/78-TR(Vol.III) dated August 3, 1978, from the Department of Social Welfare, Government of India, on the above subject.

2. It may be recalled that the above subject came up for discussion with the Seventh Finance Commission on 13.9.1978 when the Commission sought certain clarifications from the representatives of the Ministry of Finance. We explained the view point of the Finance Ministry to the Commission and undertook to furnish a note on the subject.

3. The Union Government have decided to compensate the States for the established loss of "excise revenue" resulting from the implementation of the prohibition policy. The compensation has been limited to 50% of their established loss of excise revenue each year, commencing from 1978-79, treating the actual excise revenue of 1977-78 as the base. This assistance to the States which will be in the form of grant, will be in operation till the end of the financial year 1983-84. The actual receipts under the Head of Account 039-State Excise would be taken into account for purpose of determining the quantum of compensation. No compensation will be payable for increases in revenue or cost of enforcement machinery. The State Governments have been advised to devise ways and means to recoup the likely loss of excise revenue by other measures.

4. In meeting the compensation of 50% payable to States for the loss of excise revenue, Government of India have been guided by the consideration that it should be possible for the States to make up for the balance through higher realisation of revenue from some of the existing taxes like sales-tax, entertainment tax, etc. The introduction of prohibition will increase the purchasing power which will be utilised for purchase of goods and on entertainment and other recreational activities which are subjected to tax. The cost of enforcement machinery can be taken care of within the annual growth rate of non-plan expenditure which will be provided by the Finance Commission.

Additional funds provided for medicines in hospitals.

Appendix I.6

D.O. letter No.5(17)/78-Desk.V dated August 16, 1978 from Shri R. Tirumalai, Secretary, Ministry of Supply & Rehabilitation (Department of Rehabilitation) New Delhi addressed to Shri V.B. Eswaran, Member Secretary Seventh Finance Commission, Vigyan Bhavan Annexe, New Delhi.

As you are aware, very soon after the partition, we were confronted with the gigantic problem of relief and rehabilitation of refugees from West Pakistan. Even later, the influx of refugees crossing the borders from all points occurred in several waves. The displaced persons from former East Pakistan migrated to India till 1971 in several spells. Since 1963-64, the repatriation of Indian Nationals from Burma and Sri Lanka has been taking place. Subsequently, there has also been repatriation from certain other countries in Africa and South East Asia.

2. The rehabilitation work in respect of refugees from West Pakistan has been virtually resolved but problems in respect of other migrants/repatriates are still being handled by this Department.

3. Apart from the resettlement of refugees, migrants and repatriates on land etc., the relief and rehabilitation aspect involved, inter-alia, several welfare activities, such as housing, education, training, employment, medical facilities, establishment of Permanent Liability Homes etc., To take care of some segments of these migrants and repatriates, a number of institutions such as Boarding Schools Industrial Training Centres, P.L. Homes, etc. had to be set up. Though most of these institutions were set up through the agency of concerned State Governments, these were maintained and/or financed by the Deptt. of Rehabilitation, over the last two Plan periods. The following institutions are still continuing.

Name and location of Institution	Capacity (persons)	Approximate annual expenditure based on B.E. for 1978-79 (Rs. in lakhs)
1. Permanent Liability Home at Kancharapalem (Visakhapatnam - A.P.)	300	1.93
2. P.L. Home at Mathur (Tamil Nadu)	300	6.00
3. P.L. Home at Rudrapur (U.P.)	1101	12.80
4. P.L. Home at Amtoli(Tripura)	492	3.60
5. P.L. Home at Mana (M.P.)	5536	42.00
6. Boarding School at Rheemuni-patnam	250*	1.30
7. Boarding school at Anakapalli		
8. Boarding School at Mathur (Tamil Nadu)	800*	6.20

* approximate.

4. The Home at Mana (Madhya Pradesh) is being run directly by this Department and we have already requested the Govt. of Madhya Pradesh to take over this Home. They have been informed that we would bear expenditure on the Home till the end of Fifth Plan Period and that in the meanwhile the State Govt. may place this issue before the Seventh Finance Commission to take this expenditure in account while fixing the quantum of 'grants-in-aid' for the State Government.

5. The rest of the institutions are being administered by the respective State Govts. and the Central Govt. has been reimbursing the entire expenditure on their running and maintenance. However, as regards institutions at Srl. Nos. 6 and 7, the Govt. of Andhra Pradesh were advised to take over their maintenance w.e.f. 1.4.77 stipulating also that assistance from this Department would be restricted only to the extent the repatriate students were eligible for stipends/book grants, under the pattern scheme. The State Govt. have approached us to allow them financial assistance for 1977-78 also and the proposal is under consideration.

6. The Department of Rehabilitation has, however, been anxious to wind up its activities in a phased manner. Running of the institutions of these types for the general public is the responsibility of the State Govts. Besides rehabilitated persons should now form part of the local population as well as of the main stream of national life. We have, therefore, been making efforts to persuade respective States to assume full responsibility for running and maintenance of these institutions. The State Govts. have, however, shown some reluctance to take these over, some of them possibly owing to their tight ways and means position. Nevertheless, the fact remains that this Department cannot undertake to bear this liability on a perpetual basis, because the responsibility for looking after persons under the category of permanent liability also devolves upon the State Govts. We, however, realise that the normal resources of the States/Welfare Institutions may not be sufficient to shoulder this additional burden. We have, therefore, suggested to the concerned State Govts. to place this aspect before the Seventh Finance Commission, so that the Commission could consider taking into account this liability as a committed expenditure, while fixing the quantum of Central Assistance as 'grants-in-aid' for the State Governments.

7. I shall be grateful if you will kindly bring this to the notice of the Commission who may like to give it their sympathetic consideration, at the time of finalising their recommendations regarding the quantum of Central assistance to the concerned State Governments.

With kind regards,

Appendix I.7..

Information furnished by Planning Commission
in respect of Central sector and Centrally
sponsored schemes in D.O. No. PC(P)4/5/CSS/77-
MLP dated September 15, 1973 from Shri K.V.
Sundaram, Joint Director

Kindly refer to your D.O. letter dated 3rd August, 1978 addressed to Shri P.H. Vaishnav, Joint Secretary, Planning Commission. I understand that the information asked by you regarding current year's annual plan outlays has been sent to you by State Plan Division. I am enclosing herewith a revised statement regarding the order of committed expenditure liability in 1979-80 on account of centrally sponsored schemes which are being implemented in the current year. I am afraid, it may not be possible at this stage to give figures for statewise estimate of committed expenditure for each scheme in each of the five years from 1979-80 to 1983-84 as the entire question of central and centrally sponsored schemes is being reviewed by a Committee of the National Development Council and the Ministries handling these schemes have not been able to provide this information.

Estimated Committed Expenditure Liabilities during
1979-80 on account of Centrally Sponsored Schemes

(Rs. lakhs)

Department/ <u>Name of the Schemes</u>	Amount which is likely to be shown in State Budgets.

Note received from Reserve Bank of India in their letter of July 1978, regarding Provisions for Sinking Fund and Depreciation Fund in the Revenue Account of State Budgets.

The Seventh Finance Commission has to recommend statutory Grants-In-Aid to States to finance their revenue gaps. For this purpose, the Commission is required to calculate revenue gaps of the State Governments on the basis of a method uniformly applicable to all States. In this context, a point has been raised whether transfer to sinking funds and depreciation funds should be considered as a legitimate charge or not on revenues of States and whether they should be included in, or excluded from, the revenue expenditure for the purpose of calculating revenue gaps with a view to determining the Grants-In-Aid. The Seventh Finance Commission has pointed out that the State Governments do not adopt uniform or standardised practice in regard to provision in the revenue account for amortisation and depreciation of public debt liabilities and that the Reserve Bank's instructions in relation to Sinking Funds and Depreciation Funds are not being observed uniformly by all the States. The instructions given by the Reserve Bank regarding Depreciation Fund and Sinking Fund are summarised below.

Depreciation Fund : Prior to July 1971, the notifications issued by the State Governments concerning the floatations of new loans in the market contained a stipulation that the State Government 'will provide in each financial year a sum equal to 1½ per cent of total nominal amount of the loan to be used for purchasing the securities of the loan for cancellation'. The object of creating the Depreciation Fund through annual provisions in the revenue account was to extend support to the market prices of State loans, as and when these tended to depreciate, through repurchase in advance of their maturity dates. As the prices of States loans were well maintained for quite a number of years, prior to 1971, the Governments were not required to utilise the Depreciation Fund for redemption of loans in advance of their maturity dates. Furthermore, given the prevailing conditions

in the gilt-edged market which did not call for extension of any support to their securities by the State Governments, earmarking of resources to the Depreciation Fund would only tend to reduce the resources available to the State Governments for other purposes. Against this back-ground, the Reserve Bank, through its letter No.C.117-275 dated July 23, 1971, advised the State Governments that loan notifications may be amended to make such purchases of securities permissible and not obligatory in future, and that no amount need be set apart in future for repurchases of outstanding debt. The Reserve Bank also indicated that while settling the net amount to be borrowed from the market by the States, the Bank would ignore any provisions made in the budget by any State for purchasing its securities by transfer from the Consolidated Fund to the Public Account. In pursuance of the above advice from the Bank, the loan notifications issued by the State Governments in subsequent years do not make any reference to the creation of Depreciation Fund. The divergence in practice adopted by the State Governments in this regard could thus largely be explained in terms of the withdrawal of the earlier stipulation making the setting apart of funds to the Depreciation Fund permissible and not obligatory.

Sinking Fund: Prior to April, 1975, the loan notification of the State Governments contained a clause that 'the Government will also make such annual contributions to a Sinking Fund to be utilised towards the amortisation of their open market loans, as they may, from time to time, decide to be necessary.' But, some of the State Governments which did not have a genuine revenue surplus (i.e. revenue surplus excluding grants from the Centre) were not making regular annual contributions to the Sinking Fund. While on the one hand such non-amortisation may be construed as a breach of contract as per borrowing from those who have subscribed to the loans, the mere transfer of annual provisions from the Revenue Account to the Public Account without the actual investment in securities, on the

other hand, is superfluous. It may also be noted here that the magnitude of the market borrowing of a State each year is determined after taking into account the loans falling due for redemption in that year. In view of the foregoing, it was felt that it should not be made obligatory on the part of the State Government to contribute to the Sinking Fund. Accordingly, the Reserve Bank in terms of its letter No. C117/4131 of April 9, 1975 advised the State Governments that it was not obligatory on their part to make any contribution to such funds and the relative paragraph in the loan notification can therefore be deleted.

It may, therefore, be observed that the provisions for Depreciation Fund and Sinking Fund are no longer obligatory and such provisions **are not** utilised for the purposes for which they are intended viz. (1) purchase by the State of its own securities so as to maintain their prices and (2) redeem them on maturity. Besides, the prices and yield of Government securities are dependent on conditions in the gilt-edged market which are determined in turn by the monetary and fiscal policies. Generally, maturing loans are converted into new loans and no repayment as such is made from States' own revenues. Hence, repayment of loans does not involve use of funds provided for in the revenue account.

It may further be argued that, in view of a number of State Governments having deficit on revenue accounts (excluding grants-in-aid), the transfers made to Depreciation Fund and Sinking Fund would appear to be mere book-entries rather than genuine transfer of cash balances. Moreover, all the States are not following uniform practices for making such provisions and some State Governments do not even make any provisions for these purposes. The present conditions in the gilt-edged market do not warrant any cause for concern in

terms of balancing the capital loss against an increase in interest income. It needs emphasis that, according to the 'locked in' theory of investment in government securities, an investor would normally prefer to hold the security and get full amount of loan on maturity rather than sell at lower price with an attendant capital loss in the market. Beside, even if State Governments have surpluses on revenue account (without grants-in-aid), the latter can be utilised for economic services providing better social rate of return rather than locking them up in reserves. Hence, the provisions for Depreciation Fund and Sinking Fund should not be obligatory revenue charges for States and should be excluded from the expenditure side for the purpose of determining the amount of Grants-in-aid required to fill their revenue gap.

On the basis of these considerations, the view taken by the Sixth Finance Commission that provisions for depreciation and sinking funds would not be legitimate charge on the revenue accounts of the States would seem to be apposite.

C.P.W.D. Norms based on capital costs of buildings.

PARA 55 OF CHAPTER I OF C.P.W.D. MANUAL VOL. II: The total estimated cost of maintenance of buildings/structure during a year should be within the prescribed limits, as approved by Government from time to time, both for Annual Repairs and Special Repairs. The existing percentages, as approved for these purposes, are as below:-

	Pre 31.3.42	1.4.42 to 14.8.47	Post 15th August, 47 to 1.4.1952	Post Structures 31.3.1962

Appendix I.12

Correspondence with Planning Commission regarding maintenance of capital assets completed under the plans during 1979-84.

1. D.O. letter No.7FC-1(14)-Res/77 dated August 19/21, 1978 from Member Secretary to Dr. Ajit Mozoondar, Secretary, Planning Commission.

In the course of examination of the requirements for maintenance of capital assets like roads, buildings and irrigation systems, we find that generally States provided for such maintenance in the non-plan budget for works completed during a plan period, even before the end of the Five-year plan. In accordance with this practice, some States have proposed non-plan provisions for maintenance of works expected to be completed in each year of the 5-year period 1979-84 which includes 4 years of the new five-year plan. There appears to be a conflict between this position, and what we understand is the principle supposed to be adopted for planning, i.e. that till the end of a plan period maintenance requirements of works completed in the years of the Plan should be provided for as part of the plan outlays. The question is whether in the years 1979-80 to 1983-84 the Finance Commission should consider providing for maintenance of roads, buildings and irrigation systems which may be completed in those years, or whether the Planning Commission would take care of the maintenance requirements in the Plan outlays. We would appreciate the advice of the Planning Commission on this matter urgently.

2. In the Central Government, maintenance of plan roads and plan buildings is booked to the non-plan budget of the Ministries concerned as soon as a work is completed, without waiting for the end of the five-year plan, as I am informed by FA, Shipping & Transport and FA, Works & Housing. You are, no doubt, aware of this position, which seems to be relevant to the problem mentioned above in regard to the States, from the point of view of uniformity of treatment.

2. D.O. letter No.60(34)/78-Eco. dated September 6, 1978 from Dr.Ajit Mozoondar to Member Secretary.

Kindly refer to your letter No.7FC-1(14)-Res/77 dated 21.8.1978 about whether for the years 1979-80 to 1983-84, the Finance Commission should consider providing for maintenance of roads, buildings and irrigation systems which may be completed in those years, or whether the planning Commission would take care of the maintenance requirements in the Plan outlays.

2. We are of the view that maintenance of irrigation systems should not be treated at par with the maintenance of roads and buildings. In the former case, with the completion of canal works, water is released to the farmers and consequently irrigation charges, which accrue from the beneficiaries, are credited to the States'

Appendix I.12(contd.)

normal revenues. Simultaneously, the State Governments provide the working expenses relating to the maintenance of the newly opened canal works on the non-Plan side irrespective of the fact whether the Plan period is completed or not. Under the circumstances, the Finance Commission should consider providing for the maintenance of irrigation systems which may be completed during the plan period. On the other hand, roads and buildings do not yield additional revenue to States as irrigation does. The maintenance expenditure in respect of these in the initial years is relatively small. Therefore, maintenance charges in respect of roads and buildings could be treated as Plan outlay till the completion of the Plan period.

Appendix I.13

Note dated 2.11.1977 received from Department of Irrigation on the need for adequate funds for operation and maintenance of irrigation projects.

1. Reference by the Commission: Please furnish your views on the norms and levels of expenditure required in the States, for adequate maintenance and upkeep of capital assets and of Central and State Plan schemes likely to be completed by the end of 1978-79 in sector of development concerning your Ministry. Please indicate the details of how such norms and/or levels of maintenance expenditure have been worked out.

-----xxxxxxxxx-----

2. Note received in reply from Department of Irrigation

Since the start of planned development in 1951, many major and medium irrigation projects have been taken up for construction in the country and irrigation facilities have been extended over very large areas. By the end of 1975-76 the irrigation potential created by these projects has been of the order of 47.7 million ha. out of which utilisation has been about 45.4 million ha. The construction of irrigation projects is necessary for extending the irrigation facilities to as large areas as possible in the country. Equally important is the task of operation and maintenance of these systems for realisation of full benefits envisaged at the time of their construction. Completion of irrigation projects is not an end itself. They have to be properly operated and maintained continuously if they have to yield anticipated benefits. Many of the earlier projects completed prior to independence and those which have been completed in the earlier plans, have not been generally maintained to the sufficient degree of efficiency, not due to technical know-how or the will to do this work properly being not there, but due to paucity of funds. The field of operation and maintenance of irrigation and drainage systems has been found to be quite often neglected, the main reason being shortage of finances. It needs no emphasis that proper operation and maintenance of the systems on a continuous basis is necessary, if they have to yield without interruption the full benefits. It has been noticed that in many of the older systems due to continuous financial stringency

in the operation and maintenance of the systems, deteriorations have set in and some of the systems are in a very bad state, needing extensive special repairs, remodelling and modernisation. The enthusiasm that is being displayed by the various State Governments in increasing the irrigation facilities by taking up more and more projects in their territories, needs to be equally shown in proper operation and maintenance of the completed systems, so that they do not fall into a State of neglect and thus not yield the full benefits. The subject of providing adequate funds for proper operation and maintenance of irrigation systems is thus a very important one and needs to be reviewed periodically to cater for the escalation in the costs of labour, materials and equipment. Importance of this subject has somehow been lost sight of in the past. Many of the older irrigation systems are still getting the same grants for operation and maintenance which they were getting several decades before and thus their efficiencies are getting continuously reduced.

There are various practices which are being followed by the different State Governments in allocating funds for operation and maintenance of irrigation systems. The practices vary from State to State and in some cases even from project to project in a State. In general, there are four following methods by which the operation and maintenance charges are fixed. They are:-

- a) On the basis of gross annual irrigated area, a rate per ha. is fixed (this is **being followed by a large number of States**).
- b) On the basis of culturable command area of the projects, a rate per ha. is fixed (as in the case of Bihar).
- c) On the basis of length of the canals in distribution system a rate per Km. is fixed (as in the case of U.P.).
- d) On the basis of potential created (as in the case of Maharashtra).

In the early stages of development of irrigation in a new system, the development may not be uniform throughout the command and the whole canal system may have to run to feed the different isolated developed patches of the command area. Under such conditions, of the above four

methods, it is desirable that the provision for operation and maintenance charges may be related to the potential created rather than to the actual area irrigated by the system. Once the anticipated potential is achieved under a system and is equal to the annual irrigated area, the provision for operation and maintenance charges may be made on the basis of gross annual irrigated area. Provision on the basis of gross annual irrigated area is preferable as it will take into consideration the length of time of the running of the canals in the various seasons.

3. The Committee of Ministers on "Under-utilisation of created irrigation Potential" which was set up by the erstwhile Ministry of Irrigation and Power in their report dated June, 1973 observed that operation and maintenance of irrigation and drainage systems is often a neglected field and is one of the main reasons accounting for under-utilisation of created irrigation potential. The Committee has also mentioned that in most of the cases adequate funds are not made available from the maintenance grants to carry out repair jobs particularly soon after the first operation of the canal system, when a substantial works like strengthening and raising of the earth banks and repairs after the first running of the canals are necessary.

Grants given for operation and maintenance of irrigation projects being too inadequate, the above committee felt that the systems cannot be operated with reasonable efficiency and the irrigation programme suffers. The Committee recommended that:-

(i) All the work-charged staff which requires to be continued for a long time must be appointed on regular establishment and financed from the normal establishment budget of the State for irrigation. (ii) To meet the rising costs of labour and materials and maintain the channels to a satisfactory standard, at least Rs.30 per ha. should be allotted for operation and maintenance of irrigation systems.

4. It is also observed that channels running in Kharif need clearance more than once to carry full discharge. In addition, due to increases in water for high-yielding crops the existing availability of water on many irrigation systems does not meet the requirements of the cultivators with the result that cultivators resort to cut and breaches of most

of the channels during the period of known demands. Due to paucity of funds and staff the damaged portion of the channels are not repaired promptly and properly. A study of allocation of funds for normal maintenance of channels during the last few years shows that availability per ha. has been reducing gradually, if the rise in cost of material and labour index is accounted for. Therefore, there is need for providing enhanced provision to achieve satisfactory level of maintenance.

5. As per the recommendations of the "First Conference of the State Ministers of Irrigation" held in July, 1975, the Central Water Utilisation Team was set up for studying the irrigation systems and suggesting measures for optimising their operational efficiency. The Team during its visit to the various irrigation projects in the country during the period 1975-77, found that the operation and maintenance budget was grossly inadequate in many cases and the systems were gradually deteriorating. The details in respect of some of the projects, as observed by the Team, are given in the following paras:-

(i) Son System (Bihar): The annual operation and maintenance expenses per ha. of the irrigated area in the command in the last few years has been of the order of Rs. 8.75 per ha. annually. The project authorities had approached the State Governments for increasing the rate to Rs. 18.25 per ha. The Team considered that even the increased rate of Rs. 18.25 per ha. was inadequate and needed to be increased further.

(ii) Lower Ganga Canal System (U.P.) : The operation and maintenance budget for this project was reported to be Rs. 44 lakhs per annum which corresponds to Rs. 5 per ha. of irrigated area. This rate is very low and insufficient. The system is in a bad shape due to neglect of proper maintenance.

(iii) Peechi Project (Kerala): Funds made available for maintenance without gardens at the dam are stated to be Rs. 18.25 per ha. of gross irrigated area. The project authorities had indicated that this amount was inadequate to maintain the system properly.

(iv) Purna Project (Maharashtra): Funds are allocated for operation and maintenance at the rate of Rs. 17.5 per ha. This has been found to be inadequate for proper operation and maintenance.

11. The information furnished by the States has further been categorised taking into consideration the States where regular establishment charges are included and the States where regular establishment charges are not included in 'Overall operation and maintenance charges of the irrigation systems. The details are shown in the following table-I.

Name of the State/Project	O&M charges including regular establishment charges.	O&M charges excluding regular establishment charges.	Remarks.
1.	2.	3.	4.
1. Andhra Pradesh			
a) Nizam Sagar	-	Rs. 11.46 per ha. to Rs. 23.80 per ha.	Period 1970-71 to 1975-76
b) Godavari Delta	-	Rs. 10.15 per ha. to Rs. 17.50 per ha.	-do-
c) K.C. Canal	-	Rs. 10.10 per ha. to Rs. 18.84 per ha.	Period 1970-71 to 1975-76
d) T.B.P., LLC	-	Rs. 23.76 per ha. to Rs. 36.27 per ha.	-do-
2. Haryana			
a) Bhakra System	Rs. 16.90 per ha. to Rs. 27.10 per ha.	Rs. 6.30 per ha. to Rs. 8.90 per ha.	-do- (excludes maintenance/establishment charged towards works).
b) W.O.C.	Rs. 39.60 per ha. to Rs. 70 per ha.	Rs. 18.00 per ha. to Rs. 32.40 per ha.	Period 1970-71 to 1975-76
3. Karnataka			
a) T.B.P., L.B.C.	0 to 141 miles	Rs. 14.06 per ha. to Rs. 19.90 per ha.	Period 1973 to 1976
b) T.B.P., H.L.C. & L.L.C.	-	Rs. 25.00 per ha. to Rs. 72.00 per ha.	-do-
c) Ghataprabha Stage I & II	-	Rs. 11.70 per ha. to Rs. 15.90 per ha.	-do-
4. Jammu & Kashmir			
a) Kathua	-	Rs. 7.00 per ha. to Rs. 29.00 per ha.	Period 1970-71 to 1975-76
b) Awantipura	-	Rs. 22.50 per ha. to Rs. 60.00 per ha.	-do-
5. Kerala			
a) Malampuzha	Rs. 64.53 per ha. to Rs. 105.52 per ha.	-	Period 1970-71 to 1975-76. It includes expenditure of maintenance of gardens & debit expenditure of establishment & T & P.
b) Noyyar	Rs. 91.82 per ha. to Rs. 127.11 per ha.	-	
c) Peechi Project	Rs. 52.53 per ha. to Rs. 71.18 per ha.	-	
d) Challakudy	Rs. 51.10 per ha. to Rs. 96.42 per ha.	-	

1.	2.	3.	4.
6. Madhya Pradesh a) Chambal Project (Sherpur District)	Rs.19.85 per ha. to Rs.40.86 per ha.	Rs.17.60 per ha. to Rs.32.76 per ha.	Period 1970-71 to 1975-76
7. Maharashtra a) Girna	Rs.69.88 per ha. to Rs.170.54 per ha.	Rs.35.43 per ha. to Rs.66.62 per ha.	Period 1970-71 to 1975-76.
b) Gangapur	-	Rs.22.00 per ha. to Rs.44.00 per ha.	-do-
8. Punjab a) U.B.D.C.	Rs.14.94 per ha. to Rs.22.61 per ha.	Rs.5.17 per ha. to Rs.7.00 per ha.	-do-
b) Sirhind Canal	Rs.8.20 per ha. to Rs.12.80 per ha.	Rs.3.20 per ha to Rs.4.51 per ha.	-do-
c) Bhakra System	Rs.45.89 per ha. to Rs.67.83 per ha.	Rs.12.90 per ha. to Rs.27.07 per ha.	-do-
The amounts recoverable from the States of Haryana and Rajasthan of Command works of Bhakra Canal are also included in the expenditure.			
9. Rajasthan a) Gang Canal	-	Rs.14.60 per ha. to Rs.18.00 per ha.	-do- (excluding headworks).
b) Bhakra System	-	Rs.10.55 per ha. to Rs.15.00 per ha.	-do-
c) Rajasthan Canal Project	Rs.27.83 per ha. to Rs.31.00 per ha.	Rs.21.51 per ha. to Rs.23.98 per ha.	Period 1974-75 to 1975-76 (excl- uding headworks).
10. Uttar Pradesh a) Upper Ganga Canal	-	Rs.10.04 per ha. to Rs.16.99 per ha.	Period 1970-71 to 1973-74
b) Lower Ganga Canal	-	Rs.9.12 per ha. to Rs.13.97 per ha.	-do-
c) Betwa	-	Rs. 9.92 per ha. to Rs.19.27 per ha.	-do-
d) Sarda System	-	Rs.10.97 per ha. to Rs.19.69 per ha.	Period 1970-71 to 1975-76.
e) Kon.	-	Rs. 6.41 per ha. to Rs.10.45 per ha.	-do-

f) Agra Canal	-	Rs.14.62 per ha. to Rs.19.38 per ha.	Period 1970-71 to 1975-76.
g) Eastern Yamuna Canal	-	Rs.6.46 per ha. to Rs.10.74 per ha.	-do-

12. Works Expenditure:

The data on works expenditure in the various projects (excluding work charge establishment expenses) has been tabulated in table II. It will be seen that this expenditure varies from 40% to 70% of the overall O&M expenses (excluding regular establishment expenses) :-

TABLE II

Rs. in lakhs, Period : 1970-71 to 1975-76

Name of State/ Project	Total O & M charges including work charge staff	Works expendi- ture	%age of works expenditure of the total O&M charges.
1. Andhra Pradesh			
a) Nizamsager	12.64 to 23.88	4.42 to 10.87	35% to 46%
b) Godavari Delta	46.80 to 69.83	35.89 to 50.00	77% to 72%
c) K.C. System.	12.174 to 24,333	5.78 to 13.05	47% to 62%
d) T.B.P., LLC	9.71 to 15.63	6.19 to 9.78	64% to 62%
2. J & K			
a) Awantipura Canal	0.49 to 1.20	0.32 to 0.70	65% to 58%
b) Kathua Canal	1.38 to 3.81	0.78 to 2.98	56% to 77%
3. Haryana			
a) Bhakra System (Excluding H/W)	52.23 to 82.59	35.69 to 59.45	68% to 72%
4. Kerala			
a) Malampuzha	13.42 to 20.84	10.49 to 14.60	78% to 70%
b) Neyyar	5.71 to 5.79	3.03 to 4.45	54% to 58%
5. Punjab			
a) U.B.D.C.	26.05 to 33.84	14.96 to 18.24	57.43% to 53.90%
b) Sirhind Canal	32.20 to 41.49	18.58 to 27.02	57.7% to 65.12%
c) Bhakra System (excluding H.W.)	29.55 to 65.51	21.75 to 52.49	73.60% to 80.13%

It is observed that in many projects, the inspection roads constructed on the canal banks are also used by the public. Normally canal roads should not be used for purposes other than inspection. If due to reasons beyond control, those roads are to be used for other purposes, they should be suitably reconditioned, metalled, widened and surfaced as per norms laid down for State Roads. The grant for maintenance of such roads should be borne by the PWD (Roads Department) of the respective States and should not be charged to the operation and maintenance charges of the irrigation system.

13. Work Charge Establishment Expenditure:

The expenditure on work charge estt. in the various projects has also been tabulated and shown in Table III. This indicates that these expenses vary from 30% to 60% of the overall O&M expenses (excluding regular estt. expenses):-

TABLE III.

Name of State/ Project	Period: 1970-71 to 1975-76. Total O&M Expenditure (including work charge staff)	Expenditure on work charge staff	(Rs. in lakhs) %age of work- charge staff expenditure to overall O&M charges.
2.	3.	4.	5.
<u>Andhra Pradesh</u>			
Ujjain Sagar	12.64 to 23.88	8.22 to 12.81	65% to 54%
Sodavari Delta	46.88 to 69.83	10.99 to 19.85	23% to 28%
V.C. Canal B.P., LLC	12.174 to 24.333 9.71 to 15.63	6.391 to 9.278 3.52 to 5.85	53% to 38% 36% to 38%
<u>J & K</u>			
Awantipura Canal	0.49 to 1.20	0.17 to 0.50	35% to 42%
Kathua Canal	1.38 to 3.81	0.60 to 0.83	44% to 23%
<u>Haryana:</u>			
Bhakra System excluding H/W)	52.23 to 82.5	16.54 to 23.14	32% to 28%
<u>Kerala</u>			
Malampuzha	13.42 to 20.84	2.93 to 6.25	22% to 30%
Neyyar	5.71 to 7.59	2.68 to 3.14	46% to 42%
<u>Punjab</u>			
U.B.D.C.	26.05 to 33.84	9.09 to 13.86	35% to 41%
Sirhind Canal	32.20 to 41.49	14.29 to 17.50	44% to 42%
Bhakra system excluding H/W	29.55 to 65.51	7.80 to 13.02	26% to 20%

14. Regular Establishment expenditure:

HARYANA: In the case of W.J.C. irrigation system the regular establishment charges varies from Rs.15.00 per ha. of irrigated area to Rs.26 per ha. during the period 1970-71 to 1975-76. In the Bhakra Canal System it varies from Rs.6.30 per ha. to Rs.10.05 per ha. of irrigated area during the period 1970-71 to 1975-76. It does not include the expenditure on the regular establishment for operation and maintenance of headworks.

MADHYA PRADESH: In the case of Chambal Project (Sheopur Distt.) the regular establishment charges varies from Rs.2.25 per ha. to Rs.8.10 per ha. of irrigated area for the period 1970-71 to 1975-76.

RAJASTHAN: In the case of Rajasthan Canal Project, the regular establishment charges vary from Rs.6 to Rs.7 per ha. of irrigated area for the period from 1974-75 to 1975-76 excluding expenditure on regular establishment for headworks.

PUNJAB: The expenditure on regular establishment in the case of Bhakra Canal system (excluding Head Works) varies from Rs.33.00 to Rs.42.74 per hectare of irrigated area during the period 1970-71 to 1975-76. This includes proportionate recoveries from the States of Haryana and Rajasthan on common works of Bhakra system towards the regular establishment charges.

UTTAR PRADESH: Provision for establishment charges was about Rs.17.2 per ha. of irrigated area for the year 1976-77. It has been suggested for making the provision of Rs.25.00 per ha. to meet the regular establishment charges.

15. Norms for fixing O&M Charges:

As regards norms being adopted by the State Govts. for fixing operation and maintenance charges of their canal systems the information received is as under:-

HARYANA: No norms have been fixed in the State. However, the amount sanctioned for operation and maintenance of irrigation systems for the earlier years is increased suitably to get the funds for the following year.

be adequate. There has been a continuous escalation in the cost of labour, materials, and equipment, since then, resulting in increase in the operation and maintenance costs. So the rate of Rs. 25/- per ha. which had been recommended by the last Finance Commission would be inadequate under the present day circumstances.

9. In order to have the detailed information on operation and maintenance charges of some of the selected irrigation projects in the country, Central Water Commission requested the project authorities to furnish the following information in respect of each system:-

(i) C.C.A. (ii) Area irrigated annually (iii) operation and maintenance charges for head-works and canals (iv) difficulties if any in proper operation and maintenance with the present grants and amount considered necessary by them for proper operation and maintenance.

They were also requested to furnish the norms being adopted by them for allocating funds for operation and maintenance of their irrigation systems, expenditure being incurred on regular establishment, special repairs needed or carried out along with their norms. They were further requested to intimate their actual expenses on operation and maintenance on their lift irrigation schemes (Pumped canals) and irrigation through tube wells.

10. Out of the 16 States addressed, only a few have supplied the part information which is given in Annexure I. A study of the Annexure reveals that the average annual operation and maintenance charges (including expenditure on regular establishment also) being incurred in the period 1971 to 1976 vary from Rs. 16.90 to Rs. 27.10 per ha. in the case of Bhakra Canal System (Haryana) (excluding expenditure on headworks) to Rs. 52.53 per ha. to Rs. 71.18 per ha. in the case of Peechi Project, Kerala. In the case of Malampuzha project, Kerala, the operation and Maintenance charges have gradually increased from Rs. 64.50 per ha. in 1970-71 to Rs. 105.52 per ha. in the year 1975-76. Similarly in the case of Neyyar Project, Kerala, the operation and maintenance charges have gradually increased from Rs. 103.06 per ha. in 1970-71 to Rs. 127.11 per ha. in the year 1973-74. However in the case of all the three projects of Kerala, the charges are said to include maintenance of gardens located near the dams and share debits towards establishment and T & P by Accountant General, Kerala.

11. The information furnished by the States has further been categorised taking into consideration the States where regular establishment charges are included and the States where regular establishment charges are not included in 'Overall operation and maintenance charges of the irrigation systems. The details are shown in the following table-I.

Name of the State/Project	O&M charges including regular establishment charges,	O&M charges excluding regular establishment charges,	Remarks.
1.	2.	3.	4.
1. Andhra Pradesh			
a) Nizam Sagar	-	Rs. 11.46 per ha. to Rs. 23.80 per ha.	Period 1970-71 to 1975-76
b) Godavari Delta	-	Rs. 10.15 per ha. to Rs. 17.50 per ha.	-do-
c) K.C. Canal	-	Rs. 10.10 per ha. to Rs. 18.84 per ha.	Period 1970-71 to 1975-76
d) T.B.P., LLC	-	Rs. 23.76 per ha. to Rs. 36.27 per ha.	-do-
2. Haryana			
a) Bhakra System	Rs. 16.90 per ha. to Rs. 27.10 per ha.	Rs. 6.30 per ha. to Rs. 8.90 per ha.	-do- (excludes maintenance/establishment charged towards works).
b) W.J.C.	Rs. 39.60 per ha. to Rs. 70 per ha.	Rs. 18.00 per ha. to Rs. 32.40 per ha.	Period 1970-71 to 1975-76
3. Karnataka			
a) T.B.P., L.B.C.	0 to 141 milcs	Rs. 14.06 per ha. to Rs. 19.90 per ha.	Period 1973 to 1976
b) T.B.P., H.L.C. & L.L.C.	-	Rs. 25.00 per ha. to Rs. 72.00 per ha.	-do-
c) Ghataprabha Stage I & II	-	Rs. 11.70 per ha. to Rs. 15.90 per ha.	-do-
4. Jammu & Kashmir			
a) Kathua	-	Rs. 7.00 per ha. to Rs. 29.00 per ha.	Period 1970-71 to 1975-76
b) Awantipura	-	Rs. 22.50 per ha. to Rs. 60.00 per ha.	-do-
5. Kerala			
a) Malampuzha	Rs. 64.53 per ha. to Rs. 105.52 per ha.	-	Period 1970-71 to 1975-76. It includes expenditure of maintenance of gardens & debit expenditure of establishment & T & P.
b) Noyyar	Rs. 91.82 per ha. to Rs. 127.11 per ha.	-	
c) Peechi Project	Rs. 52.53 per ha. to Rs. 71.18 per ha.	-	
d) Challakudy	Rs. 51.10 per ha. to Rs. 96.42 per ha.	-	

JAMMU & KASHMIR: No norms have been fixed for operation and maintenance charges of irrigation projects in the State.

MADHYA PRADESH: In the case of Chambal Project, it has been stated that Rs.10 per acre (Rs.25 per ha.) for utilised potential and Rs.5 per acre (Rs.12.50 per ha.) for unutilised potential are provided.

MAHARASHTRA: The norms have been under revision regularly in the last few years. The latest norms revised in 1974 were (i) Rs.3/- per acre (Rs.20/- per ha.) of irrigated potential on old and new projects in the State with gated spillway (ii) Rs.7/- per acre (Rs.17.50 per ha.) of irrigated potential on all old and new projects with ungated spillway. All the above norms are exclusively for normal maintenance and repairs of the irrigation system and do not include expenditure on staff employed on maintenance works.

The Central Team appointed by the Govt. of India to study the operational programme on the irrigation works and to suggest measures for improving the efficiency have recommended that norms prescribed in 1974 need further revision upward. The suggestion of the Central Team is under examination by the State Govt.

RAJASTHAN: No norms have as yet been fixed by the State Government.

GUJARAT: Operation and maintenance expenses of irrigation canals are under revision with the State Govt. The proposed revised rates are as under:-

Rs.10 per acre (Rs.25 per ha.) for first 5 years.

Rs.8.35 per acre (Rs.21.00 per ha.) for 6-10 years.

Rs.4.65 per acre (Rs.11.50 per ha.) for period beyond 10 years.

16. Special Repairs:

Most of the States have not furnished the information regarding allocation of funds and the basis thereof for providing funds for carrying out special repairs. However, Haryana State authorities have intimated that funds for special repairs are also taken from the operation and maintenance allocation.

Maharashtra State have intimated that when a special repair is needed on a particular project, plans and estimates for such repairs are framed and sent to State Govt. for giving required funds in addition to the normal operation and maintenance grants. If the

special repair work is to be carried out in a phased manner, amount required during the particular year is demanded by the Field Officers. Such requests are examined at Government level and the required funds inclusive of normal maintenance and repairs and special repairs grants are made available.

The very name of 'Special repairs' denotes that it is not a regular feature and will be taken up only casually as and when the system warrants the same. The expenditure on special repairs should not be charged to the normal provision of the 'operation and maintenance charges' of the irrigation system. As and when the need arises for carrying out special repairs to a particular irrigation system, a separate estimate for this purpose should be drawn up, sanctioned and funds allocated.

17. Irrigation through Lift Canals (Pumped Canals)

The operation and maintenance charges in the case of lift channels varies with the lift involved. It would not be possible to prescribe standard rates for operation and maintenance of lift schemes in general. The operation and maintenance charges will have to be determined on the basis of lift involved in the case of each individual scheme.

PUNJAB: There are two small lift irrigation schemes viz. Sukhi Nallah and Shahpur Kandi lift scheme each having irrigated area of 500 and 400 hectares respectively. The maintenance charges in the case of Sukhi Nallah scheme varied from Rs.179.22 to Rs.1,133.28 per hectare of irrigated area during the period 1970-71 to 1975-76. In the case of Shahpur Kandi lift scheme the operation and maintenance charges varied from Rs.451.46 to Rs.996.55 per hectare of irrigated area during the same period.

HARYANA: There are only four medium lift irrigation schemes in operation in Haryana. The lifts involved vary from 18 m. to 66 m. The maintenance charges of those four medium schemes vary from Rs.172.00 per ha. to Rs.380.00 per ha. of irrigated area during the period 72-73 to 75-76. It includes electricity charges, repairs, work-charge establishment and depreciation on pumps.

RAJASTHAN: There are about 49 minor lift irrigation schemes under the irrigation department. The details of lifts involved have not been furnished by the State Government. The operation and maintenance charges, if the irrigation potential is fully utilised, would be of the order of Rs.9.55 lakhs which works out to Rs.282 per ha. of the irrigated area according to the State Government.

18. River Lift Schemes:

In some lift schemes where the water is pumped directly from the river, permanent pump houses are generally constructed near the river banks to draw water to feed the irrigation system. During the lean seasons of the year, many a time the river recedes from the bank and a supply channel has to be dredged in the river bed to bring the water to the pump houses. In such cases the expenditure on dredging of the channel in the river bed and its maintenance should not be charged to the normal 'operation & maintenance charges' of the lift irrigation system. Such work will have to be undertaken as a special work under a separate estimate. Operation and maintenance grants for lift Schemes should not cover the depreciation charges.

19. It will be seen from the above that most of the State authorities are not maintaining separate accounts exclusively for expenditure on operation and maintenance of canal systems. However, it is seen that there is a vast variation in the rates for operation and maintenance per ha. of irrigated area in case of flow canals and lift schemes.

Thus, there is need for recommending separate rates per ha. of irrigated area for operation and maintenance of gravity canals systems, lift irrigation schemes and irrigation through tubewells.

20. The Union Ministry of Transport (Roads Wing) have drawn up norms for maintenance of National Highways. Funds are separately provided for carrying out normal annual maintenance (which includes ordinary repairs and periodical renewals) and special repairs. The ordinary repairs include repairs to inspection bungalows and taking care of avenue trees. Additional provision for flood damages and special repairs is made on a lumpsum basis at 20% of the total cost of normal annual maintenance. However, examination and sanction of estimate by competent authority for carrying out special repairs is a pre-requisite before any allotment from the special repairs quota of the maintenance grant, is made.

21. In the case of irrigation projects no norms for providing funds to carry out special repairs to the system have been fixed, but such repairs are carried out depending upon the exigencies of work and availability of funds. Normally, a separate estimate for carrying out special repairs is prepared, get sanctioned and works carried out. It has generally been experienced that there is considerable delay in the sanction of such estimates which hampers the execution of special repairs like closing of sudden breaches, cuts etc. expeditiously. It is, therefore, desirable that separate funds are earmarked for special repairs of irrigation projects on the pattern adopted for roads as detailed in the earlier para, to meet the expenditure for carrying out expeditiously, the special repairs to the system as and when need arises. It is suggested that separate provision for special repairs at the rate of 20% of the total annual grant for normal operation and maintenance may be made. The Chief Engineers and Superintending Engineers in charge of the systems should be delegated powers to operate such provisions at their discretion to carry out such repairs. However, examination and sanction of individual estimates by the competent authorities must precede before any allotment from such grants is made.

22. At present, in all the States the expenditure of operation and maintenance are not being booked separately, but under one head of account. Under these circumstances, it is very difficult to determine the expenses being incurred on operation and maintenance, separately. It is seen that major portion of funds (O&M charges) are consumed on work-charged establishment. Expenditure on maintenance of plantation and gardens developed at the irrigation projects sites etc. should be separately provided for and not under the normal maintenance of irrigation systems.

23. In view of above and after considering recommendations made by the various authorities and also keeping in view the present rate of cost of labour, materials and equipment, it is proposed that the following annual rates (including work charged and regular establish-
ment) per hectare of irrigated area may be recommended by the Seventh Finance Commission in respect of Operation & Maintenance charges

to irrigation Projects:-

1. Gravity Canal System
 - (a) In case of new Projects
 - Rs. 50 per ha.
 - Rs.50 per ha. of potential created and subsequently Rs.50 per ha. of the irrigated area when the annual gross irrigated area equals to potential created.
 - (b) The grants for maintenance of Canal inspection road used for public purposes should be borne by the P.W. Departments of the States.
 - (c) Maintenance of Plantations & Gardens should be separately provided for.
2. Lift Schemes (Pumped Canals): rates may vary according to the lift involved. No blanket rate can be prescribed. The grant should not include depreciation charges. The expenditure on dredging of supply channels in the river bed when the river recedes away from the bank should be taken as a special work under a separate estimate.
3. Irrigation from tube-wells: Rs.50 per ha. plus the cost of energy consumed by the system.
4. Special Repairs: A provision may be made at the rate of 20 per cent of the total annual grants for normal operation and maintenance.
3. Supplementary Note sent by the Department of Irrigation on 1.9.1978 regarding Operation & Maintenance charges for headworks of Irrigation and Multipurpose Projects.

The main structure feeding the canal system are generally storage works with or without pick-up weir and diversion works. The operation and maintenance cost of these works will vary from structure to structure depending on the type of construction, masonry/concrete, earth/rockfill or composite; length and height; spillway arrangements; controls for flood surplusing- gated or ungated, type of gates, etc. It will not, therefore, be possible to fix a rate for the operation and maintenance of head works to cover the different categories of structures. The storage works may, in some cases, form a part of a multipurpose project in which case, the capital cost of the storage works would be shared amongst flood control, irrigation power etc.,

as the case may be. Because of these reasons no provision for the purpose was included in the amount recommended in our earlier note for maintenance charges for major and medium irrigation works which are to cover only the cost of maintenance of the canal system and its head regulator(s) and allied works like silt excluders, etc. Each project has to be considered individually for making suitable provision for operation and maintenance of the head works taking all relevant factors into consideration. The O & M charges can be related to the capital cost of the headworks but no uniform rate can be suggested for the purpose.

STATEMENT SHOWING THE OPERATION AND MAINTENANCE CHARGES PER HA. OF IRRIGATED AREA
IN RESPECT OF VARIOUS PROJECTS FOR THE YEARS 1970-71 TO 1975-76

(Rate in Ra. per Ha.)

Note: Column 8 in respect of C includes interest of Rs.61 crores on Capital investments in flood control schemes in the case of Bihar, Haryana, Meghalaya and Orissa.

- 1/ Includes receipts from land revenue attributable to irrigation schemes.
- 2/ Excludes Rs.12.5 crores for 1979-84 relating to '106' minor irrigation. State Government has booked the receipts under 133.
- 3/ Net of receipts (Rs.10 lakhs for Kerala and Orissa and Rs.20 lakhs for West Bengal as indicated by the State Governments).
- 4/ Includes Rs.31 crores for payment to DVC to cover deficits.
- 5/ Provision for flood control are included under the Major Heads 332 and 333 in the State Forecasts and are not shown separately in the States' forecast.

Investments in irrigation schemes (excluding flood control and power portion) at the end of 1978-79 on which interest in column 8 has been calculated.

Appendix I.23(i)

D.O. letter No.15/18/78-IGC dated 18th August, 1978 from
Shri P.B. Menon, Member, Company Law Board to Shri
V.B. Eswaran, Member Secretary.

.....

Kindly refer to your Confidential D.O. letter No.
7FC-9(7)-Res/77 dated the 4th August, 1978, addressed to Shri
P. Krishnamurti, Secretary, Department of Company Affairs,
about placing of audit report before the Annual General Meeting
within six months of the close of the accounting year in respect
of Government companies.

2. Many Government companies have not been strictly complying
with the requirements of section 210 read with section
166 of the Companies Act, 1956 regarding placing of the
balance-sheet and profit and loss account along with the
auditors' report before the annual general meeting within six
months of the closing of the financial year. A Note regarding
timely finalisation of audit of accounts of Government companies
and a list containing names of Government companies, both
Central and State, which have failed to hold the annual general
meeting during the year 1977 and during the current year upto
31st July, 1978, within six months of closing of the financial
year are enclosed herewith, for your information.

A note regarding timely finalisation of audit of accounts in respect of Government companies.

In pursuance of Section 619 (2) of the Companies Act, 1956, the appointment of Auditors in respect of Government companies are made by the Central Government on the advice of the Comptroller and Auditor General of India. At the time of making such appointments, all Government companies are invariably instructed to make the account books of the company for the financial year available to the Auditors for audit, immediately, on the receipt of this Board's appointment order, so that the Auditors can complete their audit and submit the copies of their audit report to the Comptroller and Auditor General of India in terms of Section 619(4) of the Companies Act, 1956, so as to enable him to offer his comments upon, or to supplement the audit report well in time to permit the holding of the Annual General Meeting of the Company within 6 months of the closing of the accounting year in order to comply with the provisions of Section 166 read with Section 210 of the Companies Act, 1956.

2. Moreover, in order to ensure expeditious appointment of Auditors for the next financial year, the companies are also asked to initiate action soon after the completion of audit and certification of accounts by the Auditors for the preceding year, by immediately making a copy of such certified accounts available direct to the Office of the Comptroller and Auditor General of India without waiting for Accountant General or the Member of the Audit Board concerned to complete his audit.

3. However, inspite of these instructions, it has been observed that a large number of Government companies delay the holdings of the Annual General Meeting within six months of the close of the accounting year mainly because of non-finalisation of the audit report and sometime because of delay in appointment of Auditors. However, the delay in the appointment of Auditors takes place only in such cases where the Comptroller & Auditor General of India does not recommend the names of the

Auditors to the Company Law Board on the ground that the previous year's account had not been audited and the auditor's report not submitted to him for his remarks under Section 619(4) of the Act.

4. Thus, during the preceding calendar year, i.e., 1977 and the current year i.e. from 1.1.78 to 31st July, 1978,* 191 and *46 Government companies respectively were not in a position to hold their Annual General Meetings within the stipulated time of six months and requested the Government for granting them extension of time for holding their Annual General Meeting. In all such cases, required extensions were granted by the Government where applications under Section 166(1), second proviso of the Act, were received so that they were able to finalise the accounts to place before the Annual General Meeting within a period of nine months of the closing of the accounting year.

5. This type of extension is, however, granted with instructions that for future year steps should be taken by the company to ensure that the programme to the finalisation of their accounts and their audit is so arranged that the Annual General Meetings are held within the normal time prescribed by Section 166 read with Section 210(3)(b) of the Companies Act, 1956, while sanctioning such extension of time, the companies are also asked to take adequate measures so as to avoid default in complying with the provisions of the Act and the contingency of the application of the penal provisions thereof.

6. It is, therefore, evident that inspite of all possible steps taken by the Government by instructing the Government companies to comply with the provisions of the Companies Act, 1956, in respect of placing the books of accounts before the Annual General Meeting within six months of the closing of the accounting year, it has been noticed that many of them have failed to place their audit report before the Annual General Meeting within the stipulated period. In fact, it is for the companies and the administrative Ministries to organise

*Statewise statement is annexed at Annexures "A" & "B"

accounting system in such a way that the accounts are completed within the period as provided for in Section 210(3) of the Companies Act, 1956. Thus, the only course for placing the Audit Report before the Annual General Meeting within 6 months of the closing of the accounting year, is to reduce the time at all levels, that as soon as the Auditors submit their report, Accountant General be requested to take up supplementary audit under Section 619 (4) immediately, and that the Comptroller and Auditor General of India be requested forthwith to recommend the names of the Auditors to the Company Law Board for appointment of Auditors for the succeeding year. Thus, the timely placing of audit **report before** the Annual General Meeting much depends on the initiative of the company.
